Messagemaker **twittLED** Moving Message Display

- # Follow your favourite news service or Twitter® feed
- # Promote your business, brand and Twitter Stream
- # Use **twittLED** to display real-time customer endorsements
- # Control remotely from your mobile phone

Use as an 'in-house' instant communications tool, ideal for:

- # Office
- # Retail
- # Factory
- # Leisure
- # Cafeterias
- # Receptions and waiting rooms
- # Railway + bus stations, airport terminals and service stations

Technical Information

- Requires Ethernet connection to your network,
- A control PC on your network runs our software. When PC is switched off the display continues showing the last messages received and then updates when PC switched on again,
- Shows the last 10 tweets on any given feed,
- Shows all the Twitter feeds you subscribe to,
- Choose how many tweets you want to see-from 1 to 50 most recent,

What you get in the box:

- Display with 1.8M power lead,
- Software control CD,
- Full manual on CD,
- Mounting brackets,
- Printed mounting and operating instructions,
- Quick start guides,
- Infra red remote control and instructions (TFI-7 and 16 series only),
- 6M serial cable,
- 6M cat 5 patch lead.

Show a Twitter or RSS feed big, bold and high impact, indoors or out, using the classic large format LED ticker.

LED tickers create dynamic, attention getting movement in Retail, office or information environments.

- Indoor and outdoor rated versions in various sizes, custom sizes easily available.
- Show your own twitter stream to staff, visitors or customers using either public or protected tweets
- Control remotely, from your mobile phone by tweeting, moderating and retweeting
- Use as an 'in house' instant communications tool for staff, visitors or customers
- Great for retail applications and promotions.
- Create an interactive display for viewers to see their tweets big and bold.
- LED's can be specified in various standard colours, other colours to order
- Display also acts as a standard LED ticker showing your own programmed messages.

Separate software required.

- A great range of standard displays, normally available from stock, plus specials built to any text height or length, including optional angled, curved or circular displays

About Messagemaker

Messagemaker are one of the largest makers and suppliers of LED displays in the country. We have over 20 years experience working with LED tickers, so we know our stuff.

Full pre and post sales support is available and we're happy to provide advice.

You can order online at www.ledsignsonline.co.uk or just pick up the phone and you can talk to a helpful real person.
